A Shaman's Compendium

Herbal incense and ritual in the course of the year.

This compact work contains all you need to know about the best choice of timing and mood. A perpetual calendar makes suggestions for ceremonies of burning incense during the four seasons.

The author has developed a compact guidebook to our domestic incense plants. He shows you the substances, as well as the magical power of burning incense and shamanic healing through plant messages. He also describes 38 fragrant plants. Photo collages depict the plant and the substance used for incense. Mythical and magical tidbits, signatures, smoke signals and scented messages complete this title along with dates to note for Celtic celebrations, old rituals and current events.

Best-selling author **Thomas Kinkele** has been working as a plant shaman since over 30 years and specializes in the use of incense and the effects of fragrance. He offers a broad spectrum of workshops around plants. www.ennearom.de
