Beautiful listening experience creating an ample space for yoga practice. Melody and arrangement foster calm breathing and relaxation. The music supports breathing, allows to find one's own work rhythm and follows the free flow of energy in the body.

Melodies and instrumentalization portray a whiff of India, unfolding spherical moods and solid ground at the same time. Recorded with mostly original instruments, complemented with digital background.

Compiled together with by yoga teachers, suitable for practitioners and instructors of yoga and physical therapy.
